Summer 2015

Dear Parent/Guardian:

The Algebra 2 course at Westhill High School is the final course students need to be well-prepared for SAT and ACT standardized exams, as well as the new common core Connecticut state exam that has replaced the CAPT exam. To better prepare our students for success in Algebra 2, we have made an Algebra 2 skills review packet available for students who will be taking Algebra 2 during the 2015-2016 academic school year. While not mandatory, it is highly recommended that students complete the packet to reinforce skills that may diminish over the summer break. The packet will also get our students back into school mode and ready for the fall!

We suggest students complete the packet during August - the week or two prior to the beginning of school. We hope you have a great summer and look forward to seeing you August 31st!

Sincerely,

Michael Capriotti
