

**FREE!**

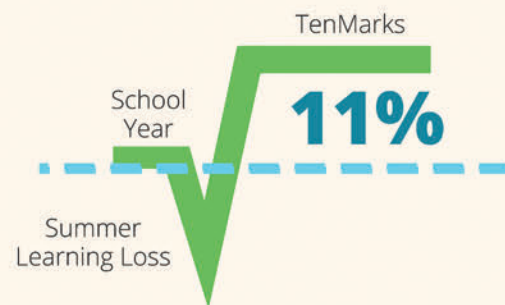

## Reverse Summer Learning Loss

TenMarks Free Summer Math Program is proven to reverse summer learning loss and build a strong foundation in core math skills for students entering grades 2 - Algebra 2/Geometry.

Research shows that students **lose on average 2-3 months** math comprehension every summer.

Students who actively participated in **TenMarks** Summer Math Program showed an **11% GAIN**.

An hour a week is all it takes for students to reverse summer learning loss, strengthen their math skills and prepare for the year ahead. View details online to share with student's families to register for this proven program.

# How It Works

The TenMarks Summer Math Program guides students through a personalized curriculum to meet their specific needs.

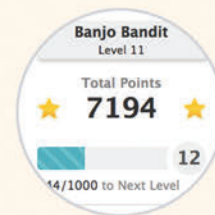

## Personalized for every student:

- Diagnostic assessment
- Results-based personalized curriculum
- Each curriculum reviews past concepts and introduces future ones

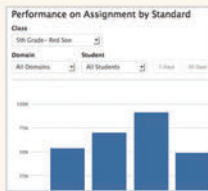

## Real-time interventions:

- Delivered automatically
- Scaffolded questions pin-point learning gaps and provide directed instruction

## Reports and deep insights:

- Real-time reports and drill down insights
- Families can easily monitor usage and proficiency

## Engaging and motivating:

- Points, levels and games motivate and engage students
- Parents can set custom rewards to motivate their children

## How Does It Benefit Teachers?

TenMarks, an Amazon company, is offering its proven summer program for FREE, \$0 cost to families or your school. (Previously \$39 per student)

### It's as easy as 1, 2, 3!

- 1** Educators can explore the curriculum and register online to download sample emails and brochures to send to families.
- 2** No teacher support required! Parents register online in minutes. Online support is available throughout the program.
- 3** Students and parents will receive end-of-summer report cards which they can share with teachers for the next school year.
